

# ***Guest Artist Visit***

Arrange for a guest artist to visit your guitar class. The visit can be customized to include an artist specializing in jazz, classical, Latin... almost any style of guitar music.

## ***How much is the visit?***

The visit is free. Donations are helpful but not at all expected.

## ***How do I know which artist will visit?***

NJGMS has a network of regional and international guitarists and will select an appropriate musician based on your class needs and preferences and will accompany them to your school.

## ***What does the artist do, just perform?***

The guest artist will perform and discuss their music, arrangements, technique and background. The goal is to impart professional and artistic knowledge... inspire! We can also highlight any particular area of interest for your group.

## ***How long is the visit?***

The visit is 45-60 minutes depending on your schedule

## ***How do I arrange for a visit?***

Details are made by the teacher for his/her class. Please contact us to discuss details

## ***What will the students learn?***

The students will gain a deeper appreciation of music. They will gain a first-hand understanding of how a performing artist functions in his/her career. Students will be exposed to different styles of music and applicable techniques. Students will see their instrument from different points of view and be inspired to seek additional playing and listening experiences.

*NJGMS provides participating teachers with a Professional Development certificate for this course.*
